CHIEF EXECUTIVE OFFICER

As CEO of Xtreme Security, Manish Dhir brings a wealth of experience from his extensive tenure in the security industry, including a pivotal role as Area Manager at Securitas.

With a career spanning over 10 years in multiple management positions, Manish has garnered a deep understanding of the sector's intricacies. It was through these varied roles that he identified a critical gap in the market: a lack of customized security services and inadequately trained security personnel. This realization, combined with his ambition and expertise, led Manish to establish Xtreme Security.

Beginning his professional journey at the University of British Columbia with a focus on business and a passion for law enforcement, Manish's diverse background covers roles from event guard to senior management.

His tenure at Securitas was particularly formative, providing him with the insight and experience needed to innovate in the security field. Manish's dedication to excellence, his innovative approach to security, and his leadership in developing effective, client focused security strategies have set Xtreme Security apart in the industry, ensuring personalized security solutions and comprehensive training for guards.
